

SITRA FOCUS

S. no.	Title	Vol.	Month	Year	No.
1.	Impact of increase in cotton prices on profitability of a spinning mill	27	Mar.	2010	5
2.	Spirality in weft knitted fabrics – causes and control	27	Jan.	2010	4
3.	Measures initiated by the mills in tackling power cut	27	Nov.	2009	4
4.	Twist for Maximum Strength & Twist Contraction in Compact Spun Yarns	27	Sep.	2009	3
5.	Break-Even Analysis for Spinning Mills	27	July	2009	2
6.	A Comparative Study on the Performance of Different Makes of Auto Levellers	27	May	2009	1
7.	Estimation of Yarn Properties in Polyester/Cotton Blends	26	Mar.	2009	6
8.	Yarn Costing - Case Studies	26	Jan.	2009	5
9.	Statistical Techniques Applicable in a Weaving Factory	26	Nov.	2008	4
10.	Managing Power shortage in spinning mills	26	Sep.	2008	3
11.	Variance Length (VL) curves and deviation rate (DR) curves - Analysis and interpretation	26	July	2008	2
12.	How to Estimate the individual contribution of raw material, Machinery condition and process variables on yarn quality – an analytical approach	26	May	2008	1
13.	3-D Narrow Fabric Using Para-Aramid Filament Yarns for Reinforcement of Opto-Electronics System -2	25	Mar.	2008	6
14.	3-D Narrow Fabric Using Para-Aramid Filament Yarns for Reinforcement of Opto-Electronics System -1	25	Jan.	2008	5
15.	Cost Reduction in Spinning Mills - Case Study 2	25	Nov.	2007	4
16.	Optimisation of Staff Requirement in Spinning Mills - Case Studies	25	Sep.	2007	3
17.	Braiding Technology for the Manufacture of Technical Textiles	25	Jul.	2007	2

SITRA FOCUS (contd...)

S. no.	Title	Vol.	Month	Year	No.
18.	Textile Industry and Information Technology SITRA FOCUS	25	May	2007	1
19.	Flame Retardant Textiles	24	Mar.	2007	6
20.	Environmental Management System (EMS) for Spinning Mills	24	Jan.	2007	5
21.	Stores Consumption in Spinning Mills	24	Nov.	2006	4
22.	Tensile, Evenness and Hairiness Characteristics of Mainfold ring Spun Yarns	24	Sept.	2006	3
23.	Achievable Levels of Extra Sensitive Imperfections in cotton Yarns Based on Fibre Properties and Process Variables	24	July	2006	2
24.	Highlights of Emerging Technology in ITMA Asia 2005 Part -2 - Fabric Formation	24	May	2006	1
25.	Contribution Variance Analysis - Case Study	23	Mar.	2006	6
26.	Highlights of Emerging Technology Witnessed at ITMA Asia 2005 Part - 1 - Short Staple Spinning	23	Jan.	2006	5
27.	How to Control Invisible Loss in Spinning Mills ? - A Case Study	23	Nov.	2005	4
28.	Assessment of yarn strength at very high speeds	23	Sept.	2005	3
29.	How to improve yarn realisation and control wastes	23	July	2005	2
30.	ITME 2004 - Impressions of Emerging Trends in Short Staple Spinning Technology	22	May.	2005	1
31.	Yarn Quality Requirements for Shuttleless Looms - Part 2	22	Mar.	2005	6
32.	Yarn Quality Requirements for Shuttle less Looms - Part 1	22	Jan.	2005	5
33.	Cotton Stickness and its Effect on Spinning Process and Yarn Quality	22	Nov.	2004	4
34.	Scientific Assessment of Work Assignments - Case Study of A High-Tech Mill	22	Sep.	2004	3
35.	Technical Yarns Manufactured in Ring Spinning System - Part 2	22	July	2004	2

SITRA FOCUS (contd...)

S. no.	Title	Vol.	Month	Year	No.
36.	Technical Yarns Manufactured in Ring Spinning System - Part I	22	May	2004	1
37.	Returns From Modernisation and Impact of Reduction in Interest Rates	21	Mar.	2004	6
38.	Impressions of ITMA 2003 - Part-2: Quality Control Instruments	21	Jan.	2004	5
39.	Impressions of ITMA 2003 - Part-I: Spinning, Preparator & Post Spg.	21	Nov.	2003	4
40.	Metamerism in Colour Matching	21	July.	2003	2
41.	High Performance Man-Made Fibres	21	May	2003	1
42.	Removal of Contamination in cotton Fibres	20	Mar.	2003	6
43.	Spandex Fibres - Scope and Application	20	Jan.	2003	5
44.	Special Type of Regenerated Cellulosic Fibres - A Glimpse	20	Nov.	2002	4
45.	Smart Fabrics	20	July	2002	2
46.	Manufacture of High Quality Yarns in Fine & Superfine Counts Using Indian Cottons - some clues	20	May	2002	1
47.	Speciality Polyester Fibres - An Insight	19	Mar.	2002	6
48.	Failure Mode & Effect Analysis (FMEA) - A Gateway to Customer Delight	19	Jan.	2002	5
49.	Evaluation of Yarn Appearance	19	Nov.	2001	4
50.	Total Productivity Maintenance (TPM) - concepts and Applications	19	July	2001	2
51.	Power Quality in Textile Mills	19	May	2001	1
52.	SITRA's Work on Modernisation During 1991-2000	18	Mar.	2001	6
53.	Index of Blend Irregularity - Concept of Application	18	Nov.	2000	4
54.	Impression of ITMA Part IV - Drives, Special Equipment and Textile Ancillaries	17	Jan	2000	5

SITRA FOCUS (contd...)

S. no.	Title	Vol.	Month	Year	No.
55.	Impression of ITMA Part II - Spinning & Preparatory M/c	17	Sep	1999	3
56.	Control of Yarn Count, Length Selling Price, Wages and Salaries (1996 - Costs)	16	Nov.	1998	4
57.	Returns From Modernisation Impact of Tax Reduction	15	Nov.	1997	4
58.	ECO-Freindly Textiles	14	July	1996	2
59.	Optimum Economic Assignment for Ring Frame Tenters	13	July	1995	2
60.	Pract.Aspects of Testing:Single Yarn Tenacity & Elongation	10	Sep.	1992	3
61.	Export of Indian Cotton Yarns	9	May	1991	1
62.	How to Arrive at Wages Cost Cost-Wise from HOK	8	Jan.	1991	5
63.	Doffing Boy Productivity in Ring Spinning	8	Sep.	1990	3
64.	Achievable Productivity Levels	7	May	1989	1
65.	Control of Yarn Strength & Its Variability	6	July	1988	2
66.	Lea Count & Strength Testing	5	Mar.	1988	6
67.	Control of Roller Lapping in Ring Frames	5	July	1987	2
68.	Significance of Span Length	3	Mar.	1986	6
69.	Defects in Yarn: Causes & Remedial Measures	3	Jan.	1986	5
70.	How to Achieve High Rate of Production per Spindle	3	July	1985	2
71.	Fibre Damage During Spun Yarn Manufacture	2	Mar.	1985	2
72.	Outgoing Yarn Control in conventional Cone winding	1	Jan.	1984	5

Members - Rs 10/-each
Non-Member - Rs 15/- each
(plus packing & postage charges)
