

## SITRA FOCUS

S. no.	Title	Vol.	Month	Year	No.
1.	How to reduce end-breaks in ring frames? – A case study	28	Nov.	2010	4
2.	Yarn-fabric relationship in ring and compact yarn fabrics	28	Sep.	2010	3
3.	Optimisation of labour & machine productivity in cone winding under different working condition	28	July	2010	2
4.	Colour contamination in grey and white bleached fabrics	28	May	2010	1
5.	Impact of increase in cotton prices on profitability of a spinning mill	27	Mar.	2010	6
6.	Spirality in weft knitted fabrics – causes and control	27	Jan.	2010	5
7.	Measures initiated by the mills in tackling power cut	27	Nov.	2009	4
8.	Twist for Maximum Strength & Twist Contraction in Compact Spun Yarns	27	Sep.	2009	3
9.	Break-Even Analysis for Spinning Mills	27	July	2009	2
10.	A Comparative Study on the Performance of Different Makes of Auto Levellers	27	May	2009	1
11.	Estimation of Yarn Properties in Polyester/Cotton Blends	26	Mar.	2009	6
12.	Yarn Costing - Case Studies	26	Jan.	2009	5
13.	Statistical Techniques Applicable in a Weaving Factory	26	Nov.	2008	4
14.	Managing Power shortage in spinning mills	26	Sep.	2008	3
15.	Variance Length (VL) curves and deviation rate (DR) curves - Analysis and interpretation	26	July	2008	2
16.	How to Estimate the individual contribution of raw material, Machinery condition and process variables on yarn quality – an analytical approach	26	May	2008	1
17.	3-D Narrow Fabric Using Para-Aramid Filament Yarns for Reinforcement of Opto-Electronics System -2	25	Mar.	2008	6
18.	3-D Narrow Fabric Using Para-Aramid Filament Yarns for Reinforcement of Opto-Electronics System -1	25	Jan.	2008	5
19.	Cost Reduction in Spinning Mills - Case Study 2	25	Nov.	2007	4
20.	Optimisation of Staff Requirement in Spinning Mills - Case Studies	25	Sep.	2007	3

## SITRA FOCUS

S. no.	Title	Vol.	Month	Year	No.
21.	Braiding Technology for the Manufacture of Technical Textiles	25	Jul.	2007	2
22.	Textile Industry and Information Technology SITRA FOCUS	25	May	2007	1
23.	Flame Retardant Textiles	24	Mar.	2007	6
24.	Environmental Management System (EMS) for Spinning Mills	24	Jan.	2007	5
25.	Stores Consumption in Spinning Mills	24	Nov.	2006	4
26.	Tensile, Evenness and Hairiness Characteristics of Mainfold ring Spun Yarns	24	Sept.	2006	3
27.	Achievable Levels of Extra Sensitive Imperfections in cotton Yarns Based on Fibre Properties and Process Variables	24	July	2006	2
28.	Highlights of Emerging Technology in ITMA Asia 2005 Part -2 - Fabric Formation	24	May	2006	1
29.	Contribution Variance Analysis - Case Study	23	Mar.	2006	6
30.	Highlights of Emerging Technology Witnessed at ITMA Asia 2005 Part - 1 - Short Staple Spinning	23	Jan.	2006	5
31.	How to Control Invisible Loss in Spinning Mills ? - A Case Study	23	Nov.	2005	4
32.	Assessment of yarn strength at very high speeds	23	Sept.	2005	3
33.	How to improve yarn realisation and control wastes	23	July	2005	2
34.	ITME 2004 - Impressions of Emerging Trends in Short Staple Spinning Technology	22	May.	2005	1
35.	Yarn Quality Requirements for Shuttleless Looms - Part 2	22	Mar.	2005	6
36.	Yarn Quality Requirements for Shuttleless Looms - Part 1	22	Jan.	2005	5
37.	Cotton Stickness and its Effect on Spinning Process and Yarn Quality	22	Nov.	2004	4
38.	Scientific Assessment of Work Assignments - Case Study of A High-Tech Mill	22	Sep.	2004	3
39.	Technical Yarns Manufactured in Ring Spinning System - Part 2	22	July	2004	2

## SITRA FOCUS

S. no.	Title	Vol.	Month	Year	No.
40.	Technical Yarns Manufactured in Ring Spinning System - Part I	22	May	2004	1
41.	Returns From Modernisation and Impact of Reduction in Interest Rates	21	Mar.	2004	6
42.	Impressions of ITMA 2003 - Part-2: Quality Control Instruments	21	Jan.	2004	5
43.	Impressions of ITMA 2003 - Part-I: Spinning, Preparator & Post Spg.	21	Nov.	2003	4
44.	Metamerismin Colour Matching	21	July.	2003	2
45.	High Performance Man-Made Fibres	21	May	2003	1
46.	Spandex Fibres - Scope and Application	20	Jan.	2003	5
47.	Special Type of Regenerated Cellulosic Fibres - A Glimpse	20	Nov.	2002	4
48.	Smart Fabrics	20	July	2002	2
49.	Manufacture of High Quality Yarns in Fine & Superfine Counts Using Indian Cottons- some clues	20	May	2002	1
50.	Speciality Polyester Fibres - An Insight	19	Mar.	2002	6
51.	Failure Mode & Effect Analysis (FMEA) - A Gateway to Customer Delight	19	Jan.	2002	5
52.	Evaluation of Yarn Appearance	19	Nov.	2001	4
53.	Total Productivity Maintenance (TPM) - concepts and Applications	19	July	2001	2
54.	Power Quality in Textile Mills	19	May	2001	1
55.	SITRA's Work on Modernisation During 1991-2000	18	Mar.	2001	6
56.	Index of Blend Irregularity - Concept of Application	18	Nov.	2000	4
57.	Impression of ITMA Part IV - Drives, Special Equipment and Textile Ancillaries	17	Jan	2000	5
58.	Impression of ITMA Part II - Spinning & Preparatory M/c	17	Sep	1999	3
59.	Control of Yarn Count, Length Selling Price, Wages and Salaries (1996 - Costs)	16	Nov.	1998	4

## SITRA FOCUS

S. no.	Title	Vol.	Month	Year	No.
60.	Returns From Modernisation Impact of Tax Reduction	15	Nov.	1997	4
61.	ECO-Freindly Textiles	14	July	1996	2
62.	Optimum Economic Assignment for Ring Frame Tenters	13	July	1995	2
63.	Pract.Aspects of Testing:Single Yarn Tenacity & Elongation	10	Sep.	1992	3
64.	Export of Indian Cotton Yarns	9	May	1991	1
65.	How to Arrive at Wages Cost Cost-Wise from HOK	8	Jan.	1991	5
66.	Doffing Boy Productivity in Ring Spinning	8	Sep.	1990	3
67.	Achievable Productivity Levels	7	May	1989	1
68.	Control of Yarn Strength & Its Variability	6	July	1988	2
69.	Lea Count & Strength Testing	5	Mar.	1988	6
70.	Control of Roller Lapping in Ring Frames	5	July	1987	2
71.	Significance of Span Length	3	Mar.	1986	6
72.	Defects in Yarn: Causes & Remedial Measures	3	Jan.	1986	5
73.	How to Achieve High Rate of Production per Spindle	3	July	1985	2
74.	Fibre Damage During Spun Yarn Manufacture	2	Mar.	1985	2
75.	Outgoing Yarn Control in conventional Cone winding	1	Jan.	1984	5
